#184-TR

## RV Cellular Antenna | Model #184-TR

Digital Antenna's new low profile RV Cellular Antenna offers exceptional range, excellent wind resistance and unsurpassed durability and strength. The antenna and ground plate simply attach to Digital Antenna's RV cable install kit or any Type N female bulkhead connector. For maximum cellular signal range, use with a Digital Antenna cell booster (sold separately). When communication is critical, Digital Antenna's award-winning antennas and cell boosters make the best connection.

### Product Technical Specifications

Model #184-TR

Radiation Pattern	Omni-Directional
Bandwidth VSWR	< 2:1 = 810 - 900 and 1800 - 1990 MHz
Gain	5dBi
Dimensions	Antenna 10" L x .235" OD Ground Plane (Max) 6.75" D
Weight	6 oz
RF Connector	Type N male
Installation	Installs on Type N female bulkhead connector (sold separately)
List Price	\$49.95

## 30' RV Cable Install Kit | Model #C457-30

Digital Antenna's new pre-assembled RV cable install kit allows for easy cable installation. Connectors are factory attached to ensure greatest connectivity and reduced install time. Premium low-loss DA240 cable features a tinned braid and foil shield for maximum signal transmission.

### Product Technical Specifications

Model #C457-30

Cable Type	30' DA240
RF Connectors	Mini-UHF male and Type N female bulkhead
Attenuation (loss)	2.6dB @ 800 MHz and 3.8 @ 1900 MHz
Installation	3" square mounting plate with stainless steel screws
List Price	\$49.95

**NEW**

#C457-30

Made in the USA, tested and tuned by hand for maximum performance, quality and durability.
