

Make your wireless network completely mobile with the Kyocera KR2 Mobile Router. With its portability, flexibility, and easy setup, creating your own hotspot – anywhere – has never been easier.

## Kyocera KR2 Mobile Router

The KR2 Mobile Router allows you to create a Wi-Fi® hotspot virtually anywhere. It uses 1xEV-DO as its WAN backhaul and serves as an access point supporting multiple computers and devices with wireless broadband connectivity. All you need is a PCMCIA Express card, 1xEV-DO card, USB (phone or modem) or cable modem connection. The KR2 Mobile Router is especially useful for mobile work groups such as emergency mobile deployments, dispatch teams, consultants, road-warrior sales groups, satellite offices, command posts, in RV's or public transportation, and more.

### Features

- 802.11 b/g/n for longer range and faster connections
- Flexible broadband connectivity with a PCMCIA, Express card, or USB connection (phone or modem) enables you to set up a Wi-Fi hotspot virtually anywhere\*
- Multiple users can share high-speed connections with rates up to 3.1 Mbps
- Fail-over capabilities for use as a conventional router with wireless EV-DO as a backup
- Smooth migration to future EV-DO releases and upgradeable firmware
- Wi-Fi Protected Setup for improved security when pairing with another Wi-Fi device, preventing unauthorized devices from connecting

### Technical Specifications

#### LAN Interface:

WiFi® - 802.11b, g, & n with 3 antennas and 4 Ethernet ports

#### Indicator LEDs:

Power, WAN (cable), WLAN (Wi-Fi), EVDO (Phone, PC Card, Express Card), WPS (Wi-Fi Protected Service)

#### Device Management:

Web-based Browser – Internet Explorer, Firefox, or other JavaScript-enabled browsers

#### Wireless Security:

64-bit or 128-bit WEP encryption, WPA-PSK authentication  
(Wi-Fi Protected Access – Pre-shared Key Mode)

#### LAN Security:

NAT with DHCP, PPTP VPN Pass-through, MAC Filtering, IP Filtering, Filter Scheduling

#### Size:

8.5 in x 5.3 in x 1.3 in (215 mm x 135 mm x 32 mm)

#### Weight:

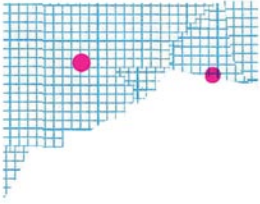

0.9 lb (450 g)

#### Operating Temperature:

32° to 122°F (0° to 50°C)

\*Subject to services and service terms available from your carrier.

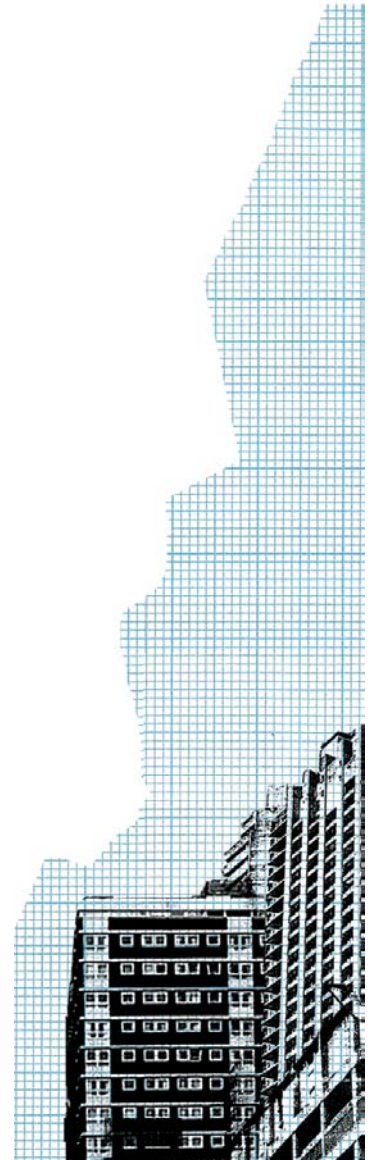

## Additional Features

---

- Built-in 10/100 Mbps switch with 4 Ethernet ports
- Automatic receipt of IP addresses with DHCP server
- Easy setup and management of secured LAN with WPA-PSK(Wi-Fi protected access with Pre-Shared Key), and a push button for WPS (Wi-Fi protected Setup)
- Browser-based configuration and easy set-up wizard
- Access Control to manage users
- NAT with VPN pass-through
- Industry-leading firewall security
- User-friendly configuration and diagnostic utilities
- Wi-Fi operates in 2.4 GHz frequency range
- Signal Strength Meter at start-up
- Wi-Fi® Certified
- Multi-language firmware
